

FOULING A SHOOTER

- **When you foul a shooter, you give them a chance for three (or four) points**
- **If you must foul, grab the shooting arm forcefully (No lazy fouls that don't bother the shot, but still give the scorer another shot)**
- **Three-point plays spark teams**
- **Early in the game, foul shooter not so nervous so better not to foul at all**
- **When you foul, instead of thinking, "Oh well, that's just my first." (you should think), "I just gave them two points."**
- **GOOD PLAYERS know the importance of NOT FOULING**
- **In 'must foul' situations, you must make sure that your intentional foul looks unintentional---GO FOR THE BALL—aggressively—either you will get the steal or whistle blows**

"Any lapse of effort, temper, or concentration due to a missed shot, a bad pass, a referee's call, or any other game event, can come at a high cost."
